2. ALL GLASS AND CHROME TRIM and anything that might become embedded in the track, must be removed from the car before bringing auto to the grounds. Also, car must be cleaned out, including the trunk. Firewalls must remain in place. They cannot be sectioned or deleted. Do not leave broken glass in doors, clean them out. WINDSHIELDS MUST BE REMOVED. ALL AIR BAG SAFETY SYSTEMS (this includes activation charges) must be removed. If air bag or activation charge is deployed during heat, you will automatically be disqualified.
3. No studded tires, no liquid or concrete tires allowed, any ply rating, foam filled or doubled tires will be allowed. All wheel weights must be removed. Weld in centers, bead lockers and valve stem protectors are allowed.
4. A MAXIMUM OF (10) GALLONS OF FULE WILL BE ALLOWED. FULE TANKS behind the axle should be moved to the trunk or to the driver's compartment back seat area. No original tanks will be allowed within the driver's compartment. If gas tanks are located in front of the rear axle, they can be left in place but should be covered with a skid plate (between ground and tank) to prevent them from being damaged, from the ground side. If you have a car equipped with a fuel pump in the fuel tank, you must install an emergency Hal

5. ONLY ONE (1) STOCK BATTERY WILL BE ALLOWED. A maximum of 1,200 cold cranking amps will be permitted. It must be encased in some way to catch any leaking acid, should it become ruptured. It may be moved into the passenger floorboard area. Must be mounted & covered for participants protection. Do not place battery in the passenger seat.
6. NO REINFORCEMENTS OF ANY KIND WILL BE ALLOWED. Only exceptions will be the driver side front door, 4-point cages are allowed no bigger than 4x4 tube. Cages cannot be attached to the floor and can't exceed 6 inches passed the rear door. Halo is allowed, no larger than 2.5 inches in diameter. No rear window bars allowed. If you have trailer hitches or any types of stiffening devices, they are considered reinforcements. You may weld rear ends or differentials to create a positive traction rear end. No flipping of rear-ends. Solid suspensions are allowed. You can chain the A arms down and bolt the chain together. You can use 1 inch rod to weld on top of the lower control arm to under the frame only exceed ¼ weld around the rod on bottom of frame. Do not weld to the side of the frame!! Maximum bumper height is 24 inches from the ground to the center of the bumper. Bumper swaps will be permitted if it's an OEM bumper and cannot exceed longer than the center of the front or rear tires. Bumpers can be welded or bolted on. Weld cannot exceed the first 6 inches of the frame and the bumpers must remain in factory location (no shortening of frames). You may insert up to three bars in the windshield opening to prevent hood collapsing back upon driver. No rear window bars allowed! Only weld on frame is the first 6 inches to help support bumpers. If covering rust holes, it must be approved by Darren Spearbeck (518) 491-9227. No cradles of any type only bottom crank pulley protector is allowed.
