

**CODE 08 - DEPARTMENT F  
FARM AND GARDEN PRODUCTS**

**Entry Fee is 15% of first premium, with a minimum entry fee of \$3.00.**

**All articles exhibited for a prize must have been grown by the exhibitor.**

- ⇒ No exhibit shall compete for more than one premium. Unless otherwise noted, all products must have been grown in the current season. No prize will be awarded where entry lacks merit. In classes of no competition, premium may be awarded according to merits of the article. In case of tie, duplicate prizes will be given.
- ⇒ Entries to be in place Tuesday 10:00 AM to 8:00 PM.
- ⇒ Take out time Monday after 7:00 PM or Tuesday 7:00 AM until Noon
- ⇒ **No double entry will be allowed.**
- ⇒ **Please read entry info carefully.**

**SECTION 1 - FIELD CROPS**

- ⇒ All entries in the classes in this section must have been grown by the exhibitor during either the year exhibited or the preceding year. Exhibits known to be older will be disqualified. The year in which the exhibit was grown must be stated on the exhibitor's tag.
- ⇒ The seed value of exhibits will be emphasized in the judging. Grains clipped, scoured or bleached may be disqualified at the discretion of the judges, since grains so treated are objectionable for seed purposes. In judging seed value, the following factors will be considered:
  - (a) Purity of the seed. Relative freedom of other crop plants, dirt, chaff, sprouted kernels and broken kernels.
  - (b) Relative freedom from obvious diseased seed.
  - (c) Relative freedom from mixtures of other varieties.
  - (d) Probable viability of the seed, as indicated by its physical condition.
  - (e) Uniformity of the seed as to size, shape and color.
  - (f) Trueness to type. All exhibits should be correctly named as to variety. Exhibits that are distinctly off-type or misnamed will be disqualified.
  - (g) Variety must be designated.

**SECTION 5 - Class 1 - - MARKET GARDENER'S EXHIBIT**

**Premium: First-\$40.00; Second-\$30.00; Third-\$25.00; Fourth-\$20.00**

- ⇒ This department is open to Montgomery and Fulton County only. All rules and regulations apply.
- ⇒ The exhibit is open to market gardeners, who will be allotted space for a complete and well rounded out display. The ability to carefully arrange for an appealing exhibit to the public will count in judging. The exhibitor may erect his name over **the display**.
- ⇒ The display shall include at least **15** different vegetables, not over **three** varieties of each kind. The vegetables must be plainly labeled with **variety** name.
- ⇒ **Number of specimens per plate same as indicated in single exhibit for that kind of vegetable.**

**To be judged from the following scale of points:**

<b>Quality (uniformity in type, color, size and freedom from blemish).....</b>	<b>50%</b>
<b>Correctness of naming varieties and trueness to type .....</b>	<b>12%</b>
<b>Commercial importance of varieties .....</b>	<b>10%</b>
<b>Completeness of collection .....</b>	<b>14%</b>
<b>Skill in arranging exhibit.....</b>	<b>14%</b>
<b>TOTAL.....</b>	<b>100%</b>

## SECTION 6 – POTATOES

⇒ **Please Follow the directions.**

⇒ Instead of awarding premiums on a large number of varieties, potatoes will be shown in groups, the varieties in each, which are similar. All varieties listed under each group will compete against each other.

⇒ Each group and variety should be prominently labeled. A plate shall consist of 3 tubers.

### Characteristics Desirable in Selection Samples

In judging each sample the following characteristics will be taken into consideration and in scoring them they will be rated according to the following percentages:

Freedom from tuber diseases and blemishes .....	30%
Uniformity (all physical characters considered).....	20%
Trueness to type (skin, color, eye and shape characteristics of variety) .....	25%
Quality (smoothness and brightness of tuber, general appearance) .....	15%
Size (8 to 12 ounces preferred).....	10%
TOTAL .....	100%

### Preparation of Sample

⇒ In preparing a variety of samples for exhibit, it is never desirable to wash the tubers. Washing tends to obliterate the typical characteristics of the skin and to amplify any imperfections in it. Careful brushing with an ordinary whisk broom will greatly improve the appearance of the sample by removing dirt and at the same time does not alter the characteristics of the skin.
